

February 17, 2022

Greetings most valued community members:

The Movement Lucas County, a grassroots non-profit 501c3 organization, has been a driving force behind eliminating barriers for members of our community. Our goal is for members of our community to have a more sustainable and productive life while learning to pay it forward by educating and sharing with others the tools and resources available to create better lives for themselves.

Our environments can either support or drain us depending on what we allow into them. Environments include not only our physical living and work spaces, but also our personal relationships, the thoughts that fill our minds and much more. To begin removing barriers, you must begin to make changes to your environment to create a more inspiring space.

We bring political empowerment through social engagement by creating a meaningful fun experience around voting and advocacy. We also advocate for community members in need of assistance in quality-of-life issues such as housing, employment, life skills, soft skills, education, and food.

We have resources to assist you with:

- Rent
- Legal
- CSB
- LCJFS
- Job Training
- Mentorship 1:1
- Vaccinations
- GED
- Technical Training
- Housing Repair for Seniors and those who qualify

Our goal is for members of our community to have a more sustainable and productive life while learning to pay it forward by educating and sharing with others the tools and resources available to create better lives for themselves. We will have access available through our website and have drop boxes in the community at partnering agencies.

Thank you in advance for your continued support!

Sincerely,

Tina Butts, CEO  
The Movement Lucas County
